※...Each area individually collects paper/fibrous materials. For details on the days and places of collection, check the leaflet supplied in each area.

How to Separate and Dispose of Garbage

Changed from April

Plastic packaging
White food trays

Burnable garbage
(Twice a week)

Small appliances
(Non-burnable garbage)

Recyclables
(Once a month)

Only electronic products that can be put in a 45 L or less bag are included.

Dry-cell batteries (Recyclables)

Once every three months

➡ **Once a month**

Frequency of collection is changed

Non-burnable garbage

Twice a month

➡ **Once a month**

Frequency of collection is changed

Recyclables

Collection days vary by area, so please confirm the collection day.
Please place recyclables in the "recycling station".

Paper and fibers
(Collected once a month)

*On rainy days, please try to prevent paper from getting wet.

Newspaper

Includes folded flyers

- Gather into bundles that can be carried by one hand, then strap them crosswise.

Paper pack

- After washing and drying, cut open and strap crosswise.
- Place paper cartons such as those used for liquor or juice, **which have aluminum lining, into the burnable garbage**
- Please use the recyclable refuse collection boxes available at places such as supermarkets as well.

Cardboard boxes

- Choose only those with corrugated material between layers, fold and strap crosswise. Remove gum tape, styrofoam, and metal materials.

Magazines, miscellaneous paper

Magazines, old books, catalogs, envelopes, wrapping paper, paper bags, paper boxes, office paper, notebooks, postcards, posters, etc.

- Gather into bundles that can be carried by one hand, strap them crosswise.
- Do not place these items in bags.
- Please shredded paper in the burnable garbage.

Fabrics

Old fabrics (sheets, towels, handkerchiefs), old clothing (suits, sweaters, skirts, shirts and pants, etc. Items with zippers and buttons attached are accepted.)

- Wash and dry well before placing in **transparent or semi-transparent bag**.
- Curtains, blankets and futons are non-burnable garbage (if they do not fit in bags, they are bulk waste).
- Coats are non-burnable garbage; jumpers are burnable garbage.
- Please also use recycle shops, etc.

Bottles, cans, PET bottles, dry-cell batteries, spray cans, lighters
(Collected once a month)

Bottles (clear, brown, other colors)

This refers to bottles that contain things that can be consumed, such as food and drinks, as well as **bottles for cosmetics**.

Remove caps

- Drain all content, clean the bottles and place them in the "clear", "brown" or "other colors" container, whichever is appropriate.
- Please have the retailer collect beer bottles and 1.8 liter bottles of sake as much as possible.
- Remove caps of bottles. (Place metal caps in the non-burnable garbage and plastic caps in the burnable garbage.)
- If the ring around the neck cannot be removed, please leave it as it is.
- Place milk-colored cosmetic bottles, glass dishes (cups, etc.) and broken bottles in the non-burnable garbage.

Cans (aluminum and steel cans)

- Rinse the insides lightly with water.
- Please place aluminum and steel cans in the basket marked "缶類" (Cans).
- The metal caps and lids of cans are non-burnable garbage.

PET Bottles

Look for this mark

Remove caps and labels

Wash the inside

- Bottles displaying the PET mark on their label (such as those of soft drinks, dairy and alcohol beverages, soy sauce products, rice wine products, vinegar, condiments, dressings, etc.) can be disposed of as PET bottles.
- If the ring around the neck cannot be removed, please leave it as it is.
- Remove caps and labels, and place them in the burnable garbage.
- Please also use the recyclable garbage collection boxes available at civic centers and supermarkets.

Dry-cell batteries

Button cells

Mobile phone batteries

- Cover the battery electrodes with tape before disposing of dry-cell batteries.

Spray cans (including cassette gas tanks)

- In order to avoid fires, poke holes in spray cans and cassette gas tanks after using all of the product, then place them in the spray can recyclables basket.

Poke holes

Lighters

- Please put into the special lighter collection box placed at the recycling stations.
- Only put in completely used-up lighters.
- If the gas will not empty out, please take it to the Iga Nambu Clean Center or the Environmental Action room on the 1st floor of the town hall.

Small appliances
(Collected once a month)

Small appliances

Various small appliances including digital cameras, phones, game instruments, battery-operated toys

- Place them in a transparent or translucent bag (45 L or less) and dispose of them at a "recycling station".
- Dispose of small appliances that cannot be put in the specified bag as bulk waste.
- Remove dry-cell batteries from small appliances and dispose of them in the "dry-cell batteries" basket.
- Delete data including personal information.
- The small appliances covered by the Home Appliance Recycling Law are not collected.

★ You can dispose of the small appliances in the collection boxes located at City Hall and civic centers.

• **Household appliances (electronic devices) that can fit through the 40 cm x 18 cm slot without disassembling**

Used Cooking Oil / Thermometers (Medical and Regular) / Fluorescent Light Tubes / Metals
(Collected once every three months)

Used Cooking Oil

(Collected in April and July)

- Dispose into container for waste cooking oil.
- Pour carefully, avoiding spillage around the container area.
- This refers to only edible oil.

Thermometers (Medical and Regular), Fluorescent Light Tubes, Light Bulbs

(Collected in May and August)

- Dispose of them unbroken. Limited to medical and regular thermometers which use mercury indicators.
- Alcohol and digital thermometers are disposed with "Non-burnable garbage."
- Battery-operated thermometers go in with "small appliances".
- Dispose of thermometers (Medical and Regular), fluorescent Light Tubes, and light bulbs together in one basket.

* You may place them in their original packaging when you dispose of them to prevent breakage.

Metals

(Collected in June and September)

Wire hanger

Cooking stoves, frying pans, pots, kettles (including enameled products)

- Only small commercialized metal appliances are included here; large ones go in "bulk waste".

- We have made available for download the "3R" app for smartphones that explains how to separate garbage and notifies you of collection days via email. Please give it a try.

For iPhone

For Android

Will Be Changed from April How to Separate and Dispose of Garbage

• Tie the top of the refuse bag shut, make sure it is light enough to be carried with one hand, and take it out.

Burnable garbage

Place in designated garbage bags
Twice a week

Raw waste
(Drain out the water well)
paper cups/waste paper that cannot be recycled

Tree branches, plant waste, grass, flowers
(Shake dirt and dispose of in bags. For tree branches, the thickness should be less than 7 cm.
Limit of 2 bags each collection)

Paper diapers, pet sheets, cat litters (including mineral-based)
(Remove dirty parts)

Paper diapers, pet sheets, cat litters (including mineral-based)
(Remove dirty parts)

Small wooden items, wooden boxes, cushions, pillows, indoor mats (used in entryways, baths and kitchens, etc.)

Plastic container trays, cups, packages, tubes, bottles, bags, wrappers, nets, etc.

Cooling materials, hot pads, desiccants, etc.

Leather bags, shoes, etc.

- Separate medical tubes and the like from home medical care supplies and dispose of as "Burnable garbage." Syringe needles will be picked up by a medical agency.

Non-burnable garbage

Place in designated garbage bags
Once a month

Plastic hangers

Plates, utensils made of crockery

Instant food aluminum trays, aluminum foil

CDs, DVDs, videotapes, etc.

Plate glass, cups, broken bottles, light bulbs, vases, tempered glass

Toys (plastic)
Remove dry-cell batteries or the like from toys (plastic), etc.

- Hoses must be cut into pieces no longer than 1 m in length.
- Cans of engine oil and paint must be drained and the caps must be removed.
- Fragments or broken pieces, needles, sharp-edged objects, etc. such as sheet glass, cups and others must be wrapped in paper and put out in bags designated as "Kiken (dangerous)".
- Only for umbrellas, cleaning tools (brooms, mops, etc.), long items are placed in the 45 liter designated garbage bags and may be collected even if they stick out of the bag.
- Small appliances go in "recyclables".

"Burnable" and "non-burnable" garbage must be put out in the city's designated garbage bags. These are sold at designated stores.

Designated garbage bag price
(Yellow, 10 ct.)

Size (liters)	Extra large 45L	Large 30L	Medium 20L	Small 10L
Amount	480yen	300yen	180yen	80 yen
